UNITED WAY FOR CORTLAND COUNTY IMPACT FUNDING 2025 APPLICATION INSTRUCTIONS

July - December

ELIGIBILITY

Any registered 501(c)(3) non-profit organizations operating in Cortland County whose work aligns with United Way's impact areas of Youth Opportunity, Healthy Community, and Financial Security to address barriers experienced by Asset Limited, Income Constrained, Employed (ALICE) threshold households in the County. More information can be found at www.unitedforAlice.org/county-report/new-york (use drop down menu to choose Cortland County). Applicants are required to operate in accordance with IDEA (Inclusion, Diversity, Equity, and Access).

NEW GRANT CYCLE

UWCC is transitioning to a calendar year funding cycle. This application will serve as the second half of 2025 grant opportunity. Grant applications for the 2026 yearlong award cycle (January-December) will open in early winter 2025.

FUNDING GUIDELINES

- The 2025 grants are awarded for a period of 6 months; allocations are distributed monthly July 2025-December 2025.
- The minimum grant request is \$2,000, and the maximum possible award will be \$15,000 per program proposal.
- A separate application is required for each program for which you are requesting funding.
- Grant awards are subject to funding availability.
- Awardees are required to submit a Funding Progress Report 6 months from the first allocation payment.

GRANT APPLICATION TIMELINE

- Submit your request by May 23rd, 2025
- Awardees will be notified by June 13th, 2025
- Monthly allocations will begin July 1st, 2025

GENERAL INFORMATION AND COMMUITY FUNDING STRATEGY

The mission of the United Way for Cortland County (UWCC) is to improve the lives of families in our community by uniting the resources of donors, volunteers and agencies. UWCC seeks to achieve its mission in Cortland County by:

- Improving upward economic and social mobility in the community to increase resilience and stability.
- Supporting programs that provide a wrap-around service, addressing barriers that prevent better outcomes and/or creates opportunities to address gaps in social services.
- Identifying and addressing the root causes of problems that challenge our community.
- Investing in strategies and programs that deliver cost-effective, measurable results.

- Supporting programs and agencies that have sound fiscal and management practices.
- Fostering efforts that build collaboration and partnerships.
- Leveraging community resources beyond the annual campaign.

Based on data from the United Way ALICE study and United Way World Wide's Thriving United Way framework, UWCC has consolidated its funding priorities to the following community impact priority areas in 2025:

- Youth Opportunity
- Healthy Community
- Financial Security

PROGRAM EVALUATION

Program accountability is central to responsible stewardship of community raised funds. UWCC will supply all awardees with a Funding Evaluation Report to be completed 6 months from the first month of awarded allocation payment. The Funding Evaluation Report will reflect the results of the funding and its resulting influence on the UWCC priority impact areas. The information provided will be used for internal accounting and select impact communication needs. All awardees must complete this evaluation in a timely manner to remain in good standing with the UWCC and be eligible for funding in the future.

TO APPLY

- Read the entire grant funding packet (17 pages including this document plus scoring rubric and funding evaluation report for your reference).
- A PDF fillable document is included as well as all other important grant cycle material.
- Enter your information to each question on the form. Do not leave any answers blank.
- Submit each grant application separately to director@cortlandunitedway.org.
- No attachments will be considered.
- Submit by May 23rd, 2025.

If have any questions, please contact Kristina Thelen at (607) 756-5639 or email director@cortlandunitedway.org

UNITED WAY FOR CORTLAND COUNTY IMPACT FUNDING 2025 COMMUNITY IMPACT PRIORITY AREAS July-December

Community impact work is the way local United Ways create positive community changes to improve the lives of residents and address underlying issues. United Way is a champion for Inclusion, Diversity, Equity and Access (IDEA) as well as programs and policy addressing Asset Limited, Income Constrained, Employed (ALICE) individuals and households. The United Way for Cortland County aims to increase social and economic stability for ALICE community members through these three key priority impact areas:

Youth Opportunity Healthy Community Financial Security

These impact areas, working in congruence, have the collective power to change lives for the most vulnerable and the most secure alike. United, the Cortland County community can work together to ensure greater prosperity and reduce the cycles of poverty that keep individuals and families from reaching their full potential and strain social care networks. Robust programmatic pathways and pipelines provide steppingstones through the entire spectrum of the social services network. In each of the three key priority impact areas, wrap around services are essential to bridge the gaps that define an individual's ultimate success. This effort reduces barriers, builds trust, and closes the circuit of supportive care.

Youth Opportunity

Building Pathways to Lifelong Stability and Empowerment

UWCC wants to enable young people to reach their full potential in life. We seek to support programs that connect them with comprehensive support, from early childhood through their transition into fulfilling careers, fostering lifelong stability and breaking cycles of poverty. This includes ensuring kindergarten readiness, academic success through high school graduation, and preparedness for both college and career pathways. We are committed to creating self-reliant individuals by focusing on economic opportunity and empowerment. Our specific strategies and approaches include:

- Investing in Early Childhood Development: Proactively supporting the healthy early development of young children and their smooth transition to kindergarten through initiatives such as enriching pre-school childcare options.
- Promoting Foundational Literacy: Providing literacy support to guarantee all students achieve reading proficiency by the end of third grade, a critical building block for future academic and economic success.
- Expanding Learning and Enrichment: Offering robust learning and enrichment opportunities,
 particularly for academically at-risk students, through after-school and summer programs that
 not only reinforce academic skills but also spark curiosity and broaden horizons in personal and
 civic growth.

- **Empowering Families as Partners:** Engaging parents and families by equipping them with the essential resources, tools, and information to actively support their child's development, educational journey, and understanding of future economic opportunities.
- **Creating Integrated Support Systems:** Partnering with K-12 schools and community-based organizations to deliver holistic, wrap-around support within the school environment, addressing both academic and socio-economic barriers.
- Cultivating Life Skills that lead to College and Career Readiness: Actively supporting youth in their transition to adult life through targeted interventions to stabilize and uplift personal dignity and empowerment in a preventive or crisis management environment. Providing further support through mentorship, career exploration, soft skills development, and leadership training that opens doors to a greater diversity of opportunities.
- Advancing Equity and Closing Opportunity Gaps: Implementing targeted efforts to dismantle
 persistent disparities in educational access and outcomes, ensuring that all young people,
 regardless of background, have equitable opportunities for success and economic mobility.

Healthy Community

Fostering Wellbeing, Economic Opportunity, and Empowerment

We are committed to improving the health and wellbeing of individuals and families, recognizing that a healthy community is foundational for economic opportunity and breaking cycles of poverty. Our focus extends beyond physical health to address the interconnected factors that empower self-reliance and lifelong stability. We strive to enable individuals and their families to not only live healthy lives but also to access pathways towards financial stability. This includes:

- Ensuring Equitable Access to Diverse Healthcare: Increasing access to a broader range of healthcare services by strategically expanding the availability of care in areas where gaps in ability to pay, coverage, specialized care, or greater need for representation currently exist.
- Promoting Healthy Lifestyles through Food Security: Improving access to healthy, nutritious food, essential for metabolic health and the cognitive function necessary for personal advancement.
- Creating Safe and Healthy Environments for Growth: Increasing access to and the accessibility
 of safe, healthy spaces that support physical and mental wellbeing, fostering environments
 conducive to recovery/rehabilitation, learning, working, and greater community engagement.
- Addressing the Social Determinants of Health for Economic Mobility: Championing community
 advocacy efforts that foster a greater understanding of the Social Determinants of Health (e.g.,
 employment, education, housing). Recognizing the critical interconnectedness of these areas
 and their profound impact on overall health outcomes, we support the collective goal of
 addressing them as fundamental to individual self-actualization and stability.

Financial Security

Empowering Economic Opportunity for Lifelong Stability and Self-Reliance

We believe everyone deserves the opportunity to earn a living that not only sustains their family but also builds security for future generations, breaking cycles of poverty and fostering self-reliance. United Way's Financial Security strategy is centered on empowering individuals to achieve lasting financial stability and access pathways for upward economic mobility. Our comprehensive approach includes:

- Increasing Parental Employment and Education: Affordable and accessible childcare allows parents, particularly mothers, who often bear the primary caregiving responsibilities, to participate more fully in the workforce or pursue further education and training. This leads to increased household income and career advancement, key drivers of economic mobility.
- Increasing Access to Interventions: Proactively guiding individuals and families through the social support system, connecting them with stabilizing programs to assist in building and maintaining forward momentum. Both preventative and crisis interventions provide comprehensive care as each option meets people where they currently are. These efforts have the power to prevent or stall financial setbacks requiring greater public funding to address.
- Strengthening Food Security and Emergency Support: Promoting and supporting agencies and programs that effectively address food insecurity and provide crucial emergency food access, ensuring basic needs are met as a steppingstone towards greater financial stability.
- Facilitating Pathways to Household-Sustaining Employment: Opportunities that help
 individuals attain jobs that offer living wages, essential benefits, and clear opportunities for
 advancement through continuing education, vocational training, and career development
 support, fostering long-term economic independence.
- Securing Safe, Affordable Housing, and Homeownership Opportunities: Assisting individuals
 and families in securing safe and affordable housing, working to reduce homelessness, and
 providing tangible pathways to homeownership, recognizing housing stability as a cornerstone
 of financial security and community integration.
- Advancing Economic Equity and Opportunity Creation: Working to close persistent economic gaps and disparities by fostering economic opportunity creating a more inclusive and equitable economic landscape.
- Improving Upward Economic and Social Mobility: Implementing strategies that foster upward economic and social mobility within the community, thereby increasing overall resilience and long-term stability for individuals and families.
- Providing Holistic Wrap-Around Support: Supporting programs that offer comprehensive wraparound services, effectively addressing the interconnected barriers and gaps often present in publicly funded social services, ensuring individuals receive the multifaceted support needed to achieve lasting self-sufficiency.

UNITED WAY FOR CORTLAND COUNTY IMPACT FUNDING 2025 UWCC GRANT FUNDING APPLICATION July – December

| Name of organization applying: |
|--|
| Has the program received UWCC grant funding in the past? |
| ☐ Yes |
| □ No |
| If so, how long has the program received UWCC grant funding: |
| Grant funding amount requested: \$ |

| IMPACT PRIORITY AREA(s) (circle): Youth Opportunity, Healthy Community, F | inancial Security |
| OVERALL SCORE | |
| | |
| 40 Points - Program Alignment/Community Need (E possible points each) | |

40 Points - Program Alignment/Community Need (5 possible points each)

- 1. The problem being addressed is described in satisfactory detail.
- 2. The appropriate data is included to demonstrate the prevalence of the issue.
- 3. The program's role in addressing the problem is described in satisfactory detail.
- 4. The program aligns with 2025 UWCC Priority Impact Areas.
- 5. The program is knowledgeable about and interacts with Asset Limited, Income Constrained, Employed (ALICE) households.
- 6. The program specifically requires individuals to be within the ALICE threshold to participate.
- 7. The program demonstrates compelling ways to determine eligibility for the program that confirms participants fall within the ALICE threshold for their household size.
- 8. The program aligns with IDEA.

20 Points - Program Management/Accountability

- 1. The program demonstrates that participants receive comprehensive wrap-around support.
- 2. The program utilizes tracking mechanisms or procedures to ensure wrap-around support.
- 3. The program demonstrates sound internal management factors through employment of dedicated staff or volunteers.
- 4. The program demonstrates sound metrics for success.

15 Points – Partnerships/Local Leadership

- 1. The program interacts with other agencies, organizations, and/or businesses.
- 2. The program demonstrates compelling partnerships.
- 3. The program demonstrates interactions with rural areas/a wider geographic reach.

25 Points - Budget Narrative/Organization Description of Need

- 1. The program demonstrates sound grant funding utilization.
- 2. The grant funding uses are essential to the program's operation.

| 3. | The program is currently or potentially supported by other funding sources. |
|--------------|--|
| 4. | The program could not effectively function without full funding from the UWCC. |
| 5. | The program satisfactorily describes operations if not awarded 100% of the UWCC funding ask. |
